SUMMARY

- Have 5 years of experience as in software both:
 - + 1 year of experience as a Java developer
 - + 1 year of experience in manual testing
 - + 3 years work such as automation testing with Selenium, JAVA + TestNG Framework, python + Robot Framework, Cucumber, Page Object Model.
- + Have experience with API testing, Database testing and AGILE project.

SKILLS

Automation Testing (Java +TestNG, Python + Robot Framework +selenium +Cucumber +Page Object Model)

Design Testcase

Database Testing(Sql server, Mysql)

API Testing(Postman, Swagger, Rest Assured)

Functional Testing

Non-Functional Testing

GUI Testing

HTML 5 + CSS 3

Communication

Bug tracking tools (JIRA, REDMINE, EXCEL, NIFTY)

EDUCATION

2013 - 2017

Ho Chi Minh City University of Transport

Information Technology

GPA : 2.8

WORK EXPERIENCE

9/2020 - Present

S3CORP

SP (Web App) - Automation Tester

- Singapore client project, it is an ecosystem that includes many services. Such as e-commerce, residential, automatic charging for electric vehicles.

1. Design and write Gherkin syntax testcase based Specifications.
2. Functional Testing :
 - + Integration Testing
 - + System Testing
 - + Sanity Testing
 - + Smoke Testing
 - + Interface Testing
 - + Regression Testing
 - + Acceptance Testing
3. Non-functional Testing :
 - + Usability Testing
 - + Security Testing
 - + Performance Testing
4. Automation testing :
 - + Scala language, Scala Test Framework, Page Object Model, GIT.
5. API testing :
 - + Postman
 - + Rest Assured
6. Log Bugs and report to QC Leader.

INTERESTS

Walking Table Tennis
Travel Music
Coding

7. Database : PostgreSQL
8. Tools : Cucumber Studio, Jira, Nifty, Excel, GIT.
9. IDE : IntelliJ

2/2020 - 9/2020

S3CORP

SM (Web App) - Automation tester

- Viet Nam client project, this is a mini supermarket system.

1. Design and write Gherkin syntax testcase based Specifications.
2. Functional Testing :
 - + Integration Testing
 - + System Testing
 - + Sanity Testing
 - + Smoke Testing
 - + Interface Testing
 - + Regression Testing
 - + Acceptance Testing
3. Non-functional Testing :
 - + Usability Testing
 - + Security Testing
4. Automation testing :
 - + JAVA language, TestNG Framework, Page Object Model, GIT.
5. API testing :
 - + Postman, Swagger
5. Log Bugs and report to QC Leader.
6. Database : SQL Server
7. Tools : Jira, Nifty, Excel, GIT.
8. IDE : Eclipse

6/2019 - 2/2020

FPT Software

JP01 (Web APP) - Automation Tester

- Japan client project, Insurance company's CRM system testing.

1. Design and write traditional testcase based Specifications.
2. Functional Testing :
 - + Integration Testing
 - + System Testing
 - + Sanity Testing
 - + Smoke Testing
 - + Interface Testing
 - + Regression Testing
 - + Acceptance Testing
3. Non-functional Testing :
 - + Usability Testing
 - + Security Testing
4. Automation testing :
 - + Python language, Robot Framework, Page Object Model, GIT
- .5. API testing :
 - + Postman
6. Log Bugs and report to QC Manager.
7. Tools :
 - + Jira, Excel, GIT.
8. IDE : Visual Studio code

06/2018 - 06/2019

FPT Software

BK01(Web App) - Automation Tester

- Viet Nam client project, This is a project in the banking sector.

1. Design and write traditional testcase based Specifications.
2. Functional Testing :
 - + Integration Testing
 - + System Testing
 - + Sanity Testing
 - + Smoke Testing
 - + Interface Testing
 - + Regression Testing
 - + Acceptance Testing
3. Non-functional Testing :
 - + Usability Testing
 - + Security Testing
 - + Performance Testing
4. Automation testing :
 - + Java language, TestNG Framework, Page Object Model, GIT.
5. API testing :
 - + Postman
6. Log Bugs and report to QC Manager.
7. Tools : Jira, Excel, GIT.
8. IDE : Eclipse

11/ 2017 - 6/2018

FPT Software

EC04(Web app) Automation Tester

- Viet Nam client project, this is a project in the field of e-commerce

1. Design and write traditional testcase based Specifications.
2. Functional Testing :
 - + Integration Testing
 - + System Testing
 - + Sanity Testing
 - + Smoke Testing
 - + Interface Testing
 - + Regression Testing
 - + Acceptance Testing
3. Non-functional Testing :
 - + Usability Testing
 - + Security Testing
4. Automation testing :
 - + Java language, TestNG Framework, Page Object Model, GIT.
5. Log Bugs and report to QC Manager.
6. Tools : Jira, Excel, GIT.
7. IDE : Eclipse

11/ 2016 - 11/2017

FPT Software

KOV2(Web App) - Manual Tester

- Viet Nam client project, this is a project in the field of e-commerce

1. Design and write traditional testcase based Specifications.

2. Functional Testing :

+ Integration Testing

+ System Testing

+ Sanity Testing

+ Smoke Testing

+ Interface Testing

+ Regression Testing

+ Acceptance Testing

3. Non-functional Testing :

+ Usability Testing

+ Security Testing

4. API Testing :

+ Postman

5. Log Bugs and report to QC Manager.

6. Tools : Jira, Excel.

3/ 2016 - 11/2016

FPT Software

Web app - Fresher Java Developer

Build up a internal information pages and support Dev.

1. Research Specifications

2. Study Java language

3. Build feature

4. Fix Bugs

Technology : Spring MVC, Hibernate, SQL server, CSS3,
Html5, Java language

5. IDE : Eclipse

6. Report to Mentor
