Professional Diploma in Information Technology / DNIIT
 NIIT VINHLONG _ CANTHO SOFTWARE PARK
 May, 2010

ABOUT ME

- 5 years after graduation, I worked with information management systems such as FPT.eHospital, Fleet Management System, Goal and Financial Manager System developed on .Net 3.5 foundation including web form & windows form, implement WCF services.

- I joined Change INTERACTION - creative & design for digital marketing, advertising. Change INTERACTION helped me to improve front-end skills and I learned UI-UX concepts to create websites with fantastic design. I've become a Full Stack web developer, it is amazing.

- 2017, I joined NashTech - A global technology, consulting and outsourcing company. In here, I'm working & learning many things such as apply new concepts and patterns of service mesh into micro services architecture for big systems, docker, k8s, Dev OOps, front-end and backend skills.
