PROFILE

I'm a professional Project Manager started from a Full Stack Developer for over 7 years. The experience of being a Developer gives me a strong technical Skill to lead the Project from Kick Off, Business Analytics, Customer Communication, Development down to UAT and Go Live. I've managed a few teams of more than 20 members working for several Projects related to Warehouse Management System, Logistics, Manufacturing System, E-commerce and KPI. Our customers are from Canada, US, Indonesia and Viet Nam.
