

Ngo Thien Bao – Technical Lead

With over 10 years of experience in the IT industry and more than 2 years of works as a Solution Architect, I have experience in a building project from the very first start as well as rebuilding project which is running. I'm proficient at implementing core back-end development tasks include 3rd party API integrations, REST API Development and website maintenance. Having excellent skills in .NET, AWS, and Azure technologies, I can adapt client requirements to systems or technical requirements to develop an appropriate solution for the customer. My focus is on possessing a proven ability to lead project teams to successfully deliver agreed upon solutions of the highest quality, often in complex and challenging customer environments. I'm in love with programming, learning modern technologies and spreads out knowledge to other members in the team.
