- Document Development Practices
- Payment Gateway Integration
- Stored Procedures
- Clean Testable Code
- Software Development Life Cycle
- Functional Application Deployment
- Domain and Hosting
- Troubleshooting / Debugging
- .NET Programming Languages
- Existing Systems Upgrade
- Microservices

TECHNOLOGY SUMMARY

- ASP.NET/MVC/.Net Core
- Microsoft SQL Server /MySQL
- Advanced Knowledge PHP
- Json, Postman, Telerik
- Oracle
- Expertise: JQuery / JavaScript
- Bootstrap
- LINQ 4, Lambda Expressions
- Entity Framework
- Jira
- AWS / SharePoint
- AJAX
- Angular 2
- Webapi. WCF
- JSON

EDUCATION

- **Bachelor of Computer Application (2011)**
SJES College / Bangalore University, Bangalore, Karnataka
- **HSC - Vitoba Higher Secondary School, Kayamkulam, Kerala**

CERTIFICATIONS

- **Microsoft Certified Professional (MCP)**[License NO. H020-0842 Exam: 70-486

PROFESSIONAL EXPERIENCE

Boutiqaat Warehouse Management System (WMS), Kuwait

Senior .NET Developer, 7/2018 to Present

Developed a WMS Application that eliminated manual functions for Batch Picking, GRN Put-Away, Stock Counting, Stock Locator, SKU/Barcode Tracking, Relation, and Inventory Adjustments.

- Saved significant overhead while increasing operation speed, enabling efficient management of warehouse zones, supervision, and personnel.
- Delivered advanced features for reporting, live monitoring, work reassignment and user role management, enabling efficient tracking of employee activities in a warehouse environment leading to safety and productivity.

Technologies Utilized:

- ASP.NET MVC, LINQ, MS SQL SERVER, AJAX, WCF, WEBAPI, Stored Procedures, jQuery.

AMAX Trading PVT LTD, Trivandrum

AMAX INFOTECH, Saudi Arabia

Senior Developer, 8/2016 – 6/2018

Led development of the following projects: Sports Portal for the Government of Jammu and Kashmir; Myxtel Telephony Solution; Saloonz Directory; and Beauty4eve Online Shopping.

- Created an online shopping website for major cosmetics company in Saudi Arabia, providing a payment gateway (Payfort and SADAD).
- Customized functionalities and UL Payment Gateway Plugin utilizing nopCommerce, a universal eCommerce platform providing a well-structured and transparent solution.
- Enabled company to provide online shopping of beauty products in Saudi Arabia, accepting payment from all credit card and SADAD accounts.
- Improved the management of inventory, purchases, sales and customer engagement by creating a new CRM application within three months.
- Enabled storage of customer interactions and the tracking of functional inventory for sales and purchase operations.
- Developed application for Beauty Spas and Salons for online service booking and Payment Gateway within six months enabling users to pay online and book appointments through Android and Ios applications throughout Saudi Arabia.
- Delivered a Sports Portal for the Government of Jammu and Kashmir enabling the management of players, tournaments, and tracking program on a multilingual website promoting localisation.

Technologies Utilized:

- ASP.NET MVC, LINQ, MS SQL Server, Ajax, Kendo, PHP CodeIgniter, Json, JQuery

Orangedice Technologies, Kollam

Web Developer, 06/2013 – 02/2016

Developed web-based management systems for a School and Resort business operation.

- Enabled a paperless environment within a School Management ERP system featuring smart technology modules for Admissions, Fee Collections, Student and Staff Attendance, School Transport Timetable Design and Parents' Portal.
- Provided Exigo Resort Management System enabling resort business to manage Guest Registration, Room Allocation, and Availability, Payroll, and Billing.

Technologies Utilized:

- PHP CodeIgniter, My SQL, Json, Ajax, jQuery, ASP.NET, MVC, LINQ, MS Mail Server, Kendo
